The President
Kamerun 4 Afrika Club

Sir,

A Letter of Appreciation

Your dignity I present with maximum respect to express my sincere gratitude and appreciations to you and the organization at large for taking care of my school fees and registration fees of all my examinations since from form six during the academic year 2009/2010 till present date.

I have successfully completed the three years course of the first cycle by defending an end of course project in which I was awarded the grade "EXCELLENT". Currently, I will be graduating in December as a Government Professional Secondary Technical School Teacher in the field of the electricity.

Sir, just to say that the above achievements have been due to your financial and general assistance through the organization. God bless you and the organization.

Yours Faithfully

N.E.N
